

Foam Revolution EvoPoreVHRC

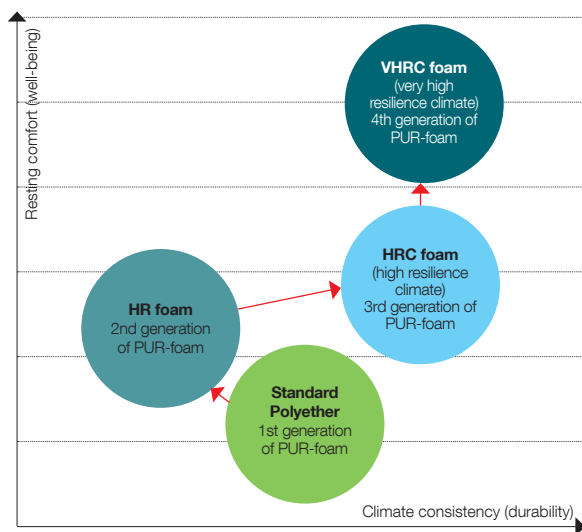

Royal Sleeping Comfort in a New Dimension

The New King's Class in the Realm of Dreams

Sleep like a king: with EvoPoreVHRC, the newest generation of premium comfort foams for royal sleeping comfort and excellent ergonomic support.

EvoPoreVHRC is a true market innovation and, as a premium comfort foam, has completely revolutionized modern sleeping comfort. VHRC stands for Very High Resilience Climate.

Metal-free Box-Spring Feeling

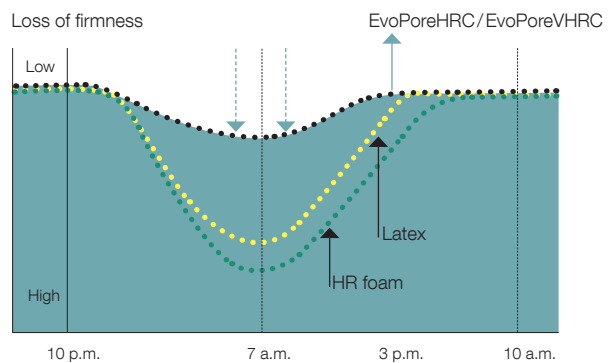

With its exceptional elasticity and precise adaptability, EvoPoreVHRC – the new premium comfort foam – provides majestic resting comfort without springs or metal of any kind – 100 % metal-free. It offers an unprecedented sleeping experience that outshines the standard box-spring comfort on the market.

Outstanding Climate Control

EvoPoreVHRC is a supremely breathable comfort foam that ensures an extraordinary sleeping climate and a relaxed awakening.

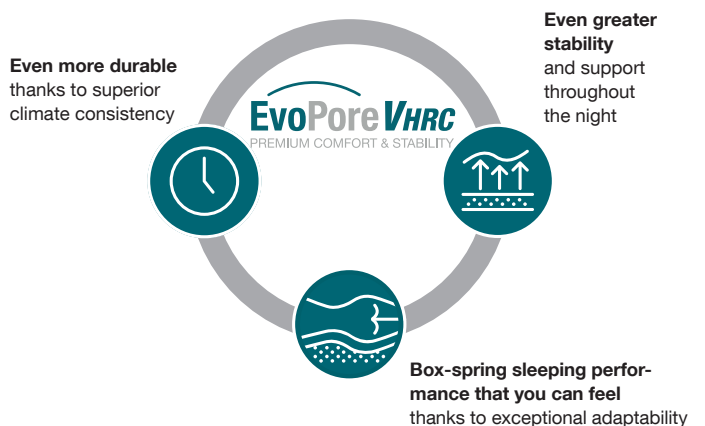

Excellent Stability and Support

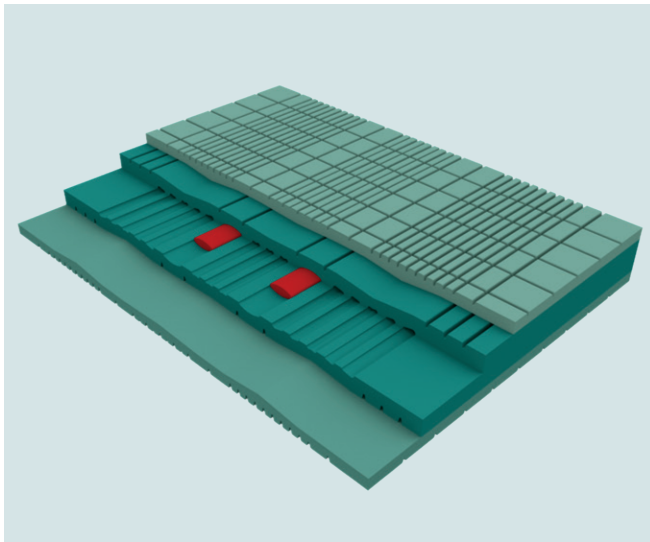

Conventional foams or latex can lose firmness when exposed to heat and moisture and therefore offer significantly less support. Thanks to its first-class climate consistency the new EvoPoreVHRC comfort foam maintains excellent stability and consistent support throughout the night – for years to come.

Royal Values

EvoPoreVHRC is a premium product that offers notably increased resting comfort, a high level of adaptability, and excellent support. This allows it to ensure outstanding sleep and optimal relaxation and regeneration.

Advantages

Trendsetting

A true market innovation and the newest foam generation

Metal-free Box-Spring Feeling

Totally spring-free for maximum well-being and majestic sleeping comfort

Excellent Stability and Support

Thanks to superb pressure distribution
