REACH Customer information

Ladies and Gentlemen,

With the introduction of the EU Chemicals Regulation (EC) 1907/2006 (REACH Regulation: **R**egistration **E**valuation **A**uthorisation of **C**hemicals) in June 2007, certain obligations and responsibilities have been defined.

FoamPartner Group is aware of these obligations and responsibilities and would like to confirm at this point that all raw materials used for your products comply with the **REACH** Regulation and have been approved according to the specifications contained therein.

In particular, FoamPartner Group confirms for your products that – according to the current state of knowledge – they do not contain substances on the list of substances of very high concern (**SVHC** candidate list, **as of 15.01.2019**) in accordance with Article 59 of the REACH Regulation (<https://echa.europa.eu/en/candidate-list-table>) with more than 0.1 mass percentage.

In accordance with Article 33 of the REACH Regulation, we will inform you – as we have done before – immediately after becoming aware of any changes in the candidate list concerning the ingredients of your products.

Finally, we would like to point out that FoamPartner Group cannot provide any guarantee regarding impurities or contamination of raw materials or downstream processes beyond its control.

Do you have any further questions regarding REACH? You can always contact us at reach@foampartner.com.

Sincerely,

Dr. Jens Hasenjäger
Head of Global SHEQ
FoamPartner Group

Heribert Perler
Vice President Global R&D
FoamPartner Group
