### SVHC - Customer information

Ladies and Gentlemen,

The companies mentioned above confirm for your products – according to the current state of knowledge – that they do not contain substances from the list of substances of very high concern (**SVHC** candidate list, as of 8 Jul 2021) in accordance with Article 59 of the EU Chemicals Regulation (EC) 1907/2006 (REACH Regulation: Registration, Evaluation, Authorisation and Restriction of Chemicals, <https://echa.europa.eu/en/candidate-list-table>) with more than 0.1 mass percentage.

We would like to point out that the companies mentioned above cannot provide any guarantee regarding impurities or contamination of raw materials or downstream processes that are beyond their control.

This declaration ceases to be valid on 31 Dec 2022, with introduction of a new SVHC list or with introduction of a new declaration which can be found on [www.foampartner.com](http://www.foampartner.com).

We are always happy to answer your questions or provide further information.

Kind regards,

Dr. Jens Hasenjäger
