

CERTIFICATE

Certificate

The polyurethane foams from the

EvoPore *VHRC*

product line fulfil the requirements in terms of human ecology according to Oeko-Tex® Standard 100, annex 6, product class 1 for baby articles.

The certified products fulfil the effective requirements of

- Appendix XVII of REACH – including the use of azo-dyes, release of nickel etc
- the American requirements regarding the amount of lead (total) in children's products (CPSIA, except glass accessories).
- the Chinese standard GB 18401:2010

We are authorised to place the Oeko-Tex® label on the above named item.

Testing institute: TESTEX Zurich
Certificate no.: ZH002 129645
Material thickness: max. 20 cm

All tests were carried out and audited according to the methods listed and the processes certified by ISO 9001:2008.

The original certificate can be viewed at our premises by request.
